

CURRENT LIST of MEDICAL LITERATURE

Vol. 6

March 3, 1944

No.9

SUBJECT GROUPS ACCORDING TO JOURNALS

- | | |
|--------------------------------------|---------------------------------------|
| 1. Anatomy; Histology | 26. Infectious Diseases; Epidemiology |
| 2. Anthropology; Ethnology | 27. Medicine |
| 3. Archeology; Paleontology | 28. Metabolism |
| 4. Aviation Medicine | 29. Military and Naval Medicine |
| 5. Bacteriology; Parasitology | 30. Miscellaneous |
| 6. Biology; Embryology | 31. Neurology; Psychiatry |
| 7. Bone; Joint; Extremities; Muscle | 32. Nursing |
| 8. Cancerology | 33. Ophthalmology |
| 9. Cardiovascular System | 34. Otorhinolaryngology; Phoniatry |
| 10. Chemistry; Physics | 35. Pathology |
| 11. Dentistry; Stomatology | 36. Pediatrics; Child Welfare |
| 12. Dermatology | 37. Pharmacology; Pharmacy |
| 13. Diagnosis; Clinical Methods | 38. Physiology |
| 14. Dietetics; Foods; Nutrition | 39. Psychology; Mental Hygiene |
| 15. Digestive System | 40. Public Health; Sanitation |
| 16. Endocrinology | 41. Radiology; Phototherapy |
| 17. Forensic Medicine; Toxicology | 42. Respiratory System |
| 18. Genetics; Eugenics | 43. Surgery; Traumatology |
| 19. Gynecology; Obstetrics | 44. Therapeutics |
| 20. Hematology | 45. Tropical Medicine |
| 21. History; Biography; Bibliography | 46. Tuberculosis |
| 22. Homeopathy; Osteopathy, etc. | 47. Urology |
| 23. Hospitals | 48. Venereal Diseases; Sexology |
| 24. Immunology; Serology | 49. Veterinary Medicine |
| 25. Industrial Hygiene; Sociology | 50. Zoology |

Privately published under the auspices of the
MEDICAL LIBRARY ASSOCIATION, INC.
AND THE
FRIENDS OF THE ARMY MEDICAL LIBRARY
 Washington, D. C.

MICROFILM SERVICE

The Photoduplication Service of the Army Medical Library is the first that has ever been conducted as a legitimate extension of the free service which libraries have been accustomed to render those who come to them. The expediency of this plan has been questioned by some on the basis that service without charge to those at a distance would be abused. These same persons, however, never question whether those who come into libraries abuse this privilege by asking for more books than they actually are able to use.

It is evident that persons incompetent to make use of the collections in scientific libraries do not take the trouble to visit them. Why then should it be supposed that those at a distance will request microfilm copies of material they are not able to use? To ascribe purely acquisitive or selfish motives to persons engaged in scientific research reflects on the fairness of those who make such imputations. The few who might deserve this reproach, should not deter us from rendering the aid which the many others so richly deserve. They of all persons devote their energies, usually entirely unselfishly, to matters designed for the general welfare. It is to the success of their activities that is due all real acquisitions to knowledge and their applications to human progress.

A scientific library serves its purpose only to the extent it succeeds in placing its collections at the disposal of persons capable of using them for the advancement of science. Any method which contributes to this end is certainly worthy of the whole-hearted support of every ambitious librarian.

WANTED! BACK NUMBERS!

It would be appreciated, if anyone having copies of the following numbers of the CURRENT LIST, which they are not using would return them to us;

- Volume 3, Number 17;
- Volume 4, Numbers 1, 2, 3, 14 & 25;
- Volume 5, Supplement 1.

CURRENT LIST OF MEDICAL LITERATURE is published weekly and lists of RECENT BOOK ACQUISITIONS are issued several times per year as supplements. The subscription price for both is \$5.00 per year in the United States and \$5.50 per year in other countries. The Recent Book Acquisitions may be obtained separately at \$1.00 per year.

2. Anthropology; Ethnology

Am. J. Phys. Anthropol., 1943, n. ser., 1: (Dec.)

- WENGER, F. Racial differences in the colon in natives of Bolivia. 313-23.
ASHLEY-MONTAGU, M.F. Variation of the diastemata in the dentition of the anthropoid apes and its significance for the origin of man. 325-53.
HOWELS, W.W. Physical anthropology as a technique. 365-61.
CORNOLLY, C.J. The fissural pattern in the brain of Negroes and whites; the occipital lobe. 383-403.
REYNOLDS, E.L. Degree of kinship and pattern of ossification; a longitudinal x-ray study of the appearance pattern of ossification centers in children of different kinship groups. 406-16.
MICHELSON, N. Studies in the physical development of Negroes; cephalic index. 417-24.

Appl. Anthropol., 1942-43, 2: No. 4.

- SAUNDERS, I.T. The folk approach in extension work: a Bulgarian experience. 1-4.
HOOPER, O. Possibilities for improvement among rural Panamanians. 4-10.
LOOMIS, C.P. Applied anthropology in Latin America; developing a permanent and stable supply of needed agricultural materials. 15-17.

4. Aviation Medicine

Air Surgeon's Bull., 1944, 1: No. 2.

- GRINKER, R.R., & SPIEGEL, J.P. Narcosynthesis; a psychotherapeutic method for acute war neuroses. 1-6.
KELSEY, M.P. Acute exposure of flyers to arctic waters. 7-10.
RUSE, H. A. Convalescent training program. 14-16.
ARMY AIR FORCES venereal disease policy. 17.
BENZEDRINE alert. 19-21.
SLOAN, L.L. "Cures" for color blindness. 22.
FOSTER, J.W., & HARGREAVES, J.M. An experimental portable field dental chest for the Army Air Forces. 25.

5. Bacteriology; Parasitology

Bull. Entom. Res., Lond., 1943-44, 34: (Dec.)

- PARR, H.C.M. The culicine mosquitos of Syria and the Lebanon. 245-54.
VOLKOVSKY, M.T. Rearing locusts in captivity. 263-6.
NIXON, G.E.J. New braconid parasites of Australian woodborer beetles with notes on the subfamily Hecabolinae (Hym., Braconidae). 267-67.
ROBINSON, G.G. The use of plaster substratum for testing pyrethrum-oil films against *Ornithodoros moubata*, Murray (Acarina; Argasidae). 269-77.
LEWIS, D.J. The culicine mosquitos of Eritrea. 279-85.
CHINA, W.E. A new genus and species of Miridae (Bryocorinae) feeding on *Khaya gradifolia* in the gold Coast (Hemiptera Heteroptera). 287-90.
KEVAN, D.K.M. An account of *Schistocerca flavofasciata* (De Geer 1773) in Trinidad (Orthoptera: Acrididae). 291-310.

STACKELBERG, A.A. A new species of *Finlaya*, Theo. (Diptera, Culicidae) from Ussuri Land. 311.

CALLAN, E.M. Natural enemies of the cacao thrips. 313-21.

VAN SOMEREN, G.R.C. Notes on the mosquitos of British Somaliland. 323-8.

J. Bact., Balt., 1944, 47: (Jan.)

- HORNER, C.K., & ALLISON, F.E. Utilization of fixed nitrogen by *Asotobacter* and influence on nitrogen fixation. I-14.
VALKO, E.I., & DU BOIS, A.S. The antibacterial action of surface active cations. 15-26.
FOSTER, J.W. Microbiological aspects of riboflavin; introduction; bacterial oxidation of riboflavin to lumichrome. 27-41.
FOSTER, J.W., & WOODRUFF, H.S. Microbiological aspects of penicillin; procedure for the cup assay for penicillin. 43-56.
VEBA, H.D. A comparative study of materials suitable for the cultivation of clostridia. 59-69.
MILLER, C.P., & SCHAD, D. The resistance of meningococci to drying. 71-7.
MILLER, C.P., & SCHAD, D. Germicidal action of daylight on meningococci in the dried state. 79-84.
BLUNDELL, G.P., ERF, L.A., ET AL. Observations on the effect of ultra violet irradiation (Knott technic) on bacteria and their toxins suspended in human blood and appropriate diluents. 86-96.
PIKE, R.M., & FOSTER, A.Z. Demonstration of sulfonamide inhibitor production by bacteria on agar containing sulfonamide. 97-105.
EMMONS, C.W. Misuse of the name *Trichophyton roseaceum* for a saprophytic fungus. 107.
TOBIAS, W.C., & AYRES, G.B. Lack of correlation between plate test and phenol coefficient determination on germicides and antiseptics. 109.
FOLEY, E.J., EPSTEIN, J.A., & LEE, S.W. Effectiveness of penicillin on *Listeria*. 110.
ANDERSON, T.P. Virus reactions inside of bacterial host cells. 113.
BERLE, L.C., & OBOLD, W.L. The riboflavin content of lumichrome meats. 113.
WELLS, W.P., & RIGNEY, E. Stages of suspension of air-borne infection. 113.
J. Econ. Entom., 1943, 36: (Dec.)
COX, A.J. Terminology of insecticides, fungicides and other economic poisons. 813-21.
ESSIG, E.O., HOSKINS, W.M., ET AL. A report on the penetration of packaging materials by insects. 822-9.
LINSLEY, E.G., & MICHELBAEHR, A.E. A report on insect infestation of stored grain in California. 829-31.
ROCKWOOD, L.P., & REEHER, W.M. Forecasting outbreaks of the pea aphid on fall-sown annual legumes in the Pacific Northwest. 832-7.
ROCKWOOD, L.P., & CHAMBERLIN, T.R. The western spotted cucumber beetle as a pest of forage crops in the Pacific Northwest. 837-42.
EICHMANN, R.D. Commercial pea warehouse tests of fumigants used against the pea weevil in the Palouse region. 843-9.
EICHMANN, R.D. Asparagus miner really not a pest. 849-52.
ELMORE, J.C., & CAMPBELL, R.E. Aphid increase and plant injury following the use of calcium arsenate on peppers. 853-6.
HASTINGS, E., & PEPPER, J.H. Studies on body fluids of 7 orthopterans, their pH, buffering capacity, and effect on solubility of fractionated insecticides. 857-64.

- SCHOFF, R., EIDE, P.H., & DOUCETTE, C.F. Experiments for field control of the narcissus bulb fly. 864-7.
- YUST, H.R. Productivity of the California red scale on lemon fruits. 868-72.
- YUST, H.R., NELSON, H.D., & BUSBEY, R.L. The influence of repeated fumigation with HCN on the susceptibility of the California red scale. 872-4.
- YUST, H.R., BUSBEY, R.L., & NELSON, H.D. Influence of decreasing constant, and increasing concentrations on results of fumigation of the California red scale with HCN. 876-8.
- ALLEN, H.W., & BRUNSON, M.H. The effect of proximity to apple on the extent of oriental fruit moth injury in peach orchards. 879-82.
- YOTHERS, M.A., CARLSON, F.W., & CASSIL, C.C. Tests of 4,6-dinitro-o-cresol emulsion against overwintering codling moth larvae. 882-4.
- COLLINS, D.L., & MACHADO, W. Reactions of the codling moth to artificial light and the use of light traps in its control. 885-93.
- QUESTEL, D.D., & IRONS, F. Insecticidal treatment of market sweet corn with high-clearance boom equipment for control of the European corn borer. 893-6.

MICROFILM COPYING

Army Medical Library
Washington, D.C.

The Library recognizes that microfilm copying is a service which publicly supported reference libraries may well perform on an equal basis with that provided for readers and by interlibrary loans. In the pursuance of such a policy, microfilms will be sent without charge in lieu of the loan of the books to those who prefer them or where books or journals cannot be loaned.

In addition to the service to individuals, to accredited research institutions and to the various governmental establishments, microfilm copying is being conducted with special reference to the needs of the widely scattered medical units of the Armed Forces. This emergency need accounts now for the major part of the microfilm activities of the Army Medical Library and they are expanding at a rapid rate.

The operation of Microfilm Service, which has hitherto done microfilm copying in this Library at a cost just sufficient to pay its way, will be practically suspended beginning September 1, 1943.

Since microfilm copying is being done by this Library to promote medical research in its broadest aspects, orders may be sent direct by individuals or through the librarians of hospitals, medical schools and other institutions located in this country or elsewhere. In general, only the separate articles in the periodical literature will be copied. Long run copying may be done in special cases but will be subject to such modifications as the facilities of the Library and the present restricted supply of film, dictate.

In order to simplify the operation of the copying service, the use of order blanks will no longer be required. Titles and references to articles of which microfilm copies are desired should be written on letter paper and a carbon copy of each request should be included.

Governmental and emergency war establishments need not include postage where films are requested. In the case of all others who take advantage of this service in lieu of interlibrary loans, the franking privilege cannot be granted and medical librarians and individuals should send postage as follows:

For articles not exceeding 100 pages, send 1¢
For articles not exceeding 400 pages, send 3¢
For articles over 400 pages, send 4¢ stamps

Send Orders To:

Photoduplication Service
Army Medical Library
